Measuring Guide for Roof window blinds

With Blinds4You, measuring for your beautiful new roof blinds is easy. Just follow this step-by-step guide, taking care to double check as you go and look out for some handy tips to help you save time too. Below is a handy guide for measuring for Roof window blinds.

This guide works for:

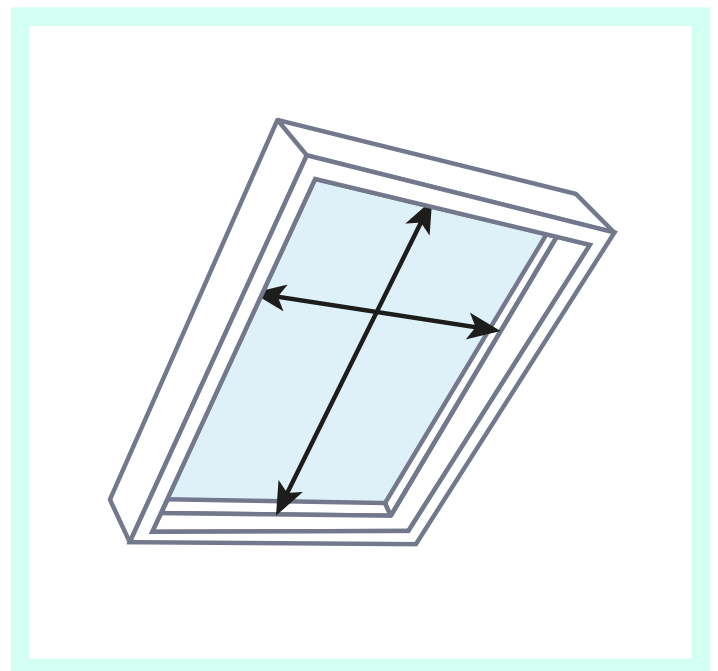

- Velux window blinds
- Fakro windows blinds
- Keylite windows blinds
- Rooflite and Dakstra window blinds

Roof lights come in set sizes making it easy to get the right blinds for your window. Look for a plate on your window frame – usually inside – and take down the window size.

Trouble getting window code?

Don't panic if you cannot find the code or the information has rubbed off the roof window plate over time. Measure the width and drop of the visible glass area and give us a call on **0808 196 4233** – we'll help you identify the code size for your order.

Once you have noted your window size code, choose that code on www.blinds4you.co.uk/collections/velux-blinds from the drop down list. We will make your new blind to your sizes and send them out to you ready to fit.
